Duke Energy Convention Center

Cincinnati's convention center recently underwent a \$160 million expansion, renovation and reconfiguration of its downtown convention center. Work was completed June 22, 2006. The facility offers customers more space, more flexibility, improved access and improved pedestrian flow. Together with its easily accessible location and [Cincinnati USA's](#) outstanding regional attractions, the convention center re-establishes Cincinnati as a prime meeting and convention destination bringing new business and new job opportunities into the Greater Cincinnati community. The renovated facility boasts:

- Nearly 200,000 square feet of contiguous exhibition space
- More than 100,000 square feet of meeting space including two ballrooms
- 37 meeting rooms (size can be adjusted depending on users' needs)
- A new, multi-level main concourse providing easy access to the exhibit halls and the meeting and ballroom levels above
- More than 750,000 gross square feet including pre-function and support space
- More than 5,000 adjacent parking spaces

For more information on the project visit the CincinnatiUSA's website at www.cincyusa.com.
