Ice Skating Rink

The revitalized Square features a completely new ice skating rink, located in the center of the redesigned Square, just south of the Tyler Davidson Fountain. Some of the features of the new rink include:

- State-of-the-art technology and top of the line construction materials.
- Design by the same creators of the new temporary rink featured in NYC's Bryant Park and similar to the rink at NYC's Rockefeller Center.
- A new permanent chiller room below the Square that will allow the rink to remain open from late November until mid-March, more than twice as long as its predecessor.
- 50% more skating surface than the previous facility, roughly the size of the rink at Rockefeller Center in New York.
- Temporary shelters for skate rental/storage and hot chocolate sales.

See below for a rendering of the new skating rink and photos of .
